

## **Steve Hatch**

Director

Steve retired from Sandia National Laboratories in 2011 after a 32-year career as a research engineer and manager. He came to New Mexico after graduating from the University of Illinois with a master's degree in nuclear engineering and getting married. Annette and Steve are now going on 47 happy years together and have three children and one grandchild.

Steve has always enjoyed hands-on community service and has been previously active with Cub and Boy Scouts. He has also been active with United Way of Central New Mexico and is currently the president of the Sandia Civitan club of Albuquerque, a strong supporter of NMRP.

Favorite hobbies include researching his family genealogy, hiking, and seeing other parts of the world.
